

Maximizing Space for Dynamic Learning

Leveraging our expertise in metal and laminate manufacturing, we are proud to transform K-12 educational spaces, creating well-organized, innovative environments that foster learning and inspire the next generation.

Experts in storage solutions

With vast experience in educational furniture, we understand what classrooms need to perform their best.

Educators need smart, adaptable storage that brings order to the classroom and optimizes space. The right tools give them more control

over their environment and more time to focus on teaching.

Students thrive in safe, comfortable spaces that are easy to navigate. Connection—to teachers, peers, materials, and content—is key to keeping them engaged and on track for success.

Classrooms are dynamic, shifting between collaborative activities and focused learning. Storage should be just as flexible.

Our education storage solutions are thoughtfully designed to support these interconnected needs.

Our Signature Qualities

1

Excellent customer experience, including sales strategy, quotes, and management of your order and post-delivery needs.

2

High-quality storage products, crafted on the shores of Lake Michigan and designed to meet all BIFMA standards.

3

Competitive pricing, while offering colors, dimensions, and features that rival other manufacturers' furniture.

4

Quick lead times, with standard products shipping in just 10-15 days.

5

Ongoing product innovation to explore new development solutions and reduce our ecological impact.

6

Special products on request for specific customers, with a minimum of 100 units per order.

Only the Beginning

Education is always changing, and we're committed to growing with it

That means staying curious, embracing innovation, and continually refining our approach to meet the evolving needs of students and educators.

We do this by:

- Developing new solutions with our dedicated product development team
- Partnering with design firms to prototype custom storage ideas
- Expanding our material offerings and introducing innovative surfaces
- Staying open to fresh perspectives and new possibilities

By listening, learning, and adapting, we're creating storage solutions that keep pace with the future of education.

Working Together

What we can do for you

We love to show our customers how a fresh approach to furniture can solve day-to-day classroom needs. Let's sit down together to talk about your challenges and goals, and we'll put together a group of products that give teachers and students the kinds of spaces they crave.
